# WHAT WE OFFER CORPORATES

## Access to Tech Startups that Drive Innovation

Startups are disruptive by nature. As technology improves, we see them grow faster and become sustainable quicker. Instead of simply seeing startups as agents of disruption, smart corporates now collaborate to integrate them into their innovation engines. This necessitates greater agility and speed in which large corporates engage with startups. We work through strategic partnerships to deliver high quality tech startups to market. To help corporates source, nurture and integrate startups into their ecosystem, we have partnered with Founder Institute in Silicon Valley to deliver a world class programme, taking Founders from Idea to MVP in 14 weeks.
