Our Founding Mandate

Problem Statement

How do we build start-ups, future skills and transform the rural spaces in Bojanala Platinum District Municipality to become hubs for local economic transformation.

The Solution Approach

We aim to achieve this by adopting an **“asset-based- community development”** approach.

The means, we use what we have and what is within our reach to identify **“low hanging-fruits”** that we can build on to accelerate **(“snowball effect”)** the transformation of the local economy in the “Bojanala Platinum District Municipality”.

What Drives Us

Our Vision

Maximising Localisation of the Minerals Value-Chain.

Our Mission

We contribute towards the accelerated growth of selected B2B SMMEs within the mineral value-chain and key sectors in underdeveloped areas of the North-West Province of South Africa. We do this through solutions that improve global competitiveness of intermediate and finished goods plus services, with the aim to become a key ecosystem contributor of enterprise and supplier development by maximizing the “return on impact” of capital invested and financial sustainability of our organization.

Our Values

We believe in

- 1 Localised Global Solutions;
- 2 Local presence by empowering our key personnel from areas we seek to improve;
- 3 Being an active member of ESD ecosystem;
- 4 Sector specialization;
- 5 Being an ethical and high performance drive organisation
